

# Camp Class Selection 2020

Please select the **TOP FIVE** classes your camper would like to attend this year. You can do this by **numbering them in order of preference from 1 to 5**, with 1 being the camper's first choice. We will do our best to assign your camper to their top three class choices, with their fourth and fifth choice as backup options in case the other classes are full. Make sure you're filling class choices out for the correct camp!
